

# TIMOTHY AKOBUNDU

Nigeria (Lagos) | 08126402934 | timothy.christian10@gmail.com | [LinkedIn](#)

## PROFILE

Experienced software engineer with three (3+) years of expertise in crafting innovative solutions for various domains, specializing in frontend and mobile app development. I build platforms and apps that are easy to use and visually appealing to end users for individuals, businesses and cooperate entities.

## EXPERIENCES

### Mobile App developer

#### Strongreed Technologies

2023 – present

- As a mobile Developer at Strongreed, I build and design cross-platform apps with React Native. Optimizing, and launching user-friendly applications for iOS and Android devices.
- Collaborates seamlessly with diverse teams, prioritizes security, and stays ahead of platform trends for top-notch user experiences.
- Optimize application performance through advance techniques like memorization and native module
- Implement CI/CD pipelines using GitHub Actions, reducing deployment errors by 25%

### Frontend developer

#### Parlypay Technologies

2022 – 2023

- I designed and maintained responsive user interfaces using React, ensuring a seamless experience across devices, while optimizing performance through techniques like code splitting and lazy loading.
- I Integrated RESTful APIs and collaborated closely with cross-functional teams to deliver high-quality web applications, incorporating user feedback to continually improve the platform.
- Spearheaded migration from REST to GraphQL APIs, improving data fetching efficiency by 40%
- Led a team of 2 developers and 1 intern conducting weekly code review and pair programming

### Software engineer volunteer

#### Chunk Africa

2022

- Developed intuitive inventory management interface for small businesses, enabling daily, weekly, and monthly stock tracking for 500+ users across Nigeria.
- Integrated bulk-upload features for stock updates, saving businesses 15+ hours/month on manual data entry.
- Simplified onboarding workflows to reduce setup time by 60%, allowing non-technical users to start managing inventory in under 10 minutes.

### Frontend Intern

#### HNG Internships

2022

- **Learning and Development:** I engaged in a structured learning program focused on React js, Next js, Typescript, and popular frontend frameworks.
- **Project Work:** I worked on real projects, contributing to the development of user interfaces, ensuring they are functional and visually pleasing.
- **Coding:** I wrote clean, efficient, and well-documented code that aligns with best practices in software development.
- **Problem-Solving:** I learnt to identify and troubleshoot frontend development issues and propose solutions.
- **Code Reviews:** I participated in code reviews, offering feedback and learning from the feedback provided on my own code.

## EDUCATION & TRAININGS

- |   |                            |      |
|---|----------------------------|------|
| • OND in Office Technology and Management | Yaba College of Technology | 2024 |
| • Data Structures and Algorithms          | Coursera (Certified)       | 2023 |
| • Software Engineering/ Computer Science  | ALX                        | 2022 |
| • HNG Finalist                            | Certified                  | 2022 |

## SKILLS AND INTERESTS

---

Portfolio: For projects please visit [Techietim.netlify.app](https://Techietim.netlify.app)

IT Skills: Typescript, JavaScript, Dart, React.js, Next.js, React Native, Flutter, Git & Github, Python

Team: Agile/Scrum, JIRA, GitFlow, Click up, pair programming, technical mentoring.

Added Tools: Docker, Kubernetes, AWS Amplify, Sentry, Mixpanel

Interest: Networking, Music, Gaming, Fitness and wellness activities, reading, Self-development, sport activities.
