TIMOTHY AKOBUNDU

Nigeria (Lagos)| 08126402943 | timothy.christian10@gmail.com | [LinkedIn](#)

PROFILE

Experienced software engineer with two (2) years of expertise in crafting innovative solutions for various domains, specializing in frontend and mobile app development. I build platforms and apps that are easy to use and visually appealing to end users for individuals, businesses and cooperate entities.

EXPERIENCES

Mobile App developer   **Strongreed Technologies**   **2024 – present**

- As a mobile Developer at Strongreed, I build and design cross-platform apps with React Native. Optimizing, and launching user-friendly applications for iOS and Android devices.
- Collaborates seamlessly with diverse teams, prioritizes security, and stays ahead of platform trends for top-notch user experiences.

Frontend developer   **Parlypay Technologies**   **2023 – 2024**

- I designed and maintained responsive user interfaces using React, ensuring a seamless experience across devices, while optimizing performance through techniques like code splitting and lazy loading.
- I Integrated RESTful APIs and collaborated closely with cross-functional teams to deliver high-quality web applications, incorporating user feedback to continually improve the platform.

Frontend Intern   **HNG Internships**   **2022 - 2023**

- **Learning and Development**: I engaged in a structured learning program focused on React js, Next js, Typescript, and popular frontend frameworks.
- **Project Work**: I worked on real projects, contributing to the development of user interfaces, ensuring they are functional and visually pleasing.
- **Coding**: I wrote clean, efficient, and well-documented code that aligns with best practices in software development.
- **Problem-Solving**: I learnt to identify and troubleshoot frontend development issues and propose solutions.
- **Code Reviews**: I participated in code reviews, offering feedback and learning from the feedback provided on my own code.

EDUCATION & TRAININGS

OND in Office Technology and Management	Yaba College of Technology	2022 – 2024
Software Engineering/ Computer Science	ALX (Certified)	2022
Data Structures and Algorithms	Coursera (Certified)	2023

SKILLS AND INTERESTS

Portfolio: For projects please visit [Techietim.netlify.app](#)

IT Skills: Typescript, JavaScript, Dart, React.js, Next.js, React Native, Flutter, Git & Github, Python

Interest: Networking, Music, Gaming, Fitness and wellness activities, reading, constantly learning, Self-development, sport activities.
